SPRING FLING: 12X12 MEMORY LAYOUT

SPRING FLING

Preparations

Small, Spikey Flowers

1. Take out the spikey, paper flowers from the embellishment envelope and spread them out, marveling at their beauty, as you sort them by size into small, medium and large. NOTE: There is a mixture of white flowers and cream, dotted flowers.
2. Put aside 5 white, large flowers for the button-centered flowers.
3. Assemble the flowers by stacking a large, a medium and a small flower and adhering between the layers. (Choose a mixture of white and cream layers for each flower, which creates a nice sense of texture and dimension.)
4. Glue a gold sequin in the center of each flower. You should have 12 flowers, total.

Large, Button-Centered Flowers

1. Take out the 5 large paper flowers and lay them out on your workspace.
2. Adhere a large, spikey flower to the center of each.
3. Try the different buttons in the center of each flower until you are satisfied with them.
4. Adhere button centers with glue dots. NOTE: You may have to fold the glue dots in half to fit on the edge of the button, depending on the size of your glue dots.
